Yonezawa City International Relations Association (YIRA)

I. EMERGENCIES

1. Traffic Accidents and Crime (Dial 110)

Dial 110 to contact the police if you are involved in or witness a traffic accident or crime such as a burglary. Stay calm and tell the police “JIKO DESU” (There has been an accident.) or “DOROBO DESU” (There has been a burglary.) and tell them where it happened and your name and address.

2. Police Box (Koban)

In addition to police stations, there are also police boxes called koban in every community in Japan. Each of these police boxes is staffed by several officers whose job is to protect the residents of their localities. Their duties include patrolling the neighborhood, investigating crime, taking care of lost children or drunk people, giving directions, and receiving lost items. Contact them whenever you are in need of assistance.

3. Medical Emergencies (Dial 119)

Dial 119 to call for an ambulance to take you to the hospital when you have a medical emergency such as a sudden illness, serious injury, gas poisoning, or serious burns. The ambulance is free of charge. If it is a minor injury, you should go to the hospital on your own using a taxi or car.

4. Fire (Dial 119)

If a fire starts in your house or you see a fire, shout “KAJI-DA” (Fire!) to alert your neighbors. Call 119 immediately to report to the fire department. Clearly tell them KAJI-DESU (There is a fire.) and report the place of the fire, any nearby landmarks, your name, and phone number. It would be good to have these written in roman letters and posted near your telephone so you will be prepared in case a fire ever occurs.

How to Use a Fire Extinguisher

- ① Pull out the safety pin.
- ② Point the nozzle of the hose towards the fire.
- ③ Firmly squeeze the lever.
- ④ Spray the fire.

If the fire spreads to the ceiling, evacuate to a safe place.

5. Earthquakes

Japan is a country with frequent earthquakes. It is important to stay calm and not panic even when an earthquake occurs.

(1) What to do when an earthquake occurs

- Turn off the gas and stove immediately.
- Open the door to secure an exit.
- Hide under a desk or table and protect yourself from falling objects. Do not run outdoors.
- Check for information on the radio or television and if necessary, evacuate to the nearest evacuation area such as a school or community center.
- Stay away from cement-block walls and vending machines which may fall over.
- Do not use elevators when you are indoors.

(2) How to prepare for when an earthquake occurs

- Secure heavy furniture to the wall with metal fixtures so they will not fall over.
- Don't place heavy or breakable objects on high places such as on top of cupboards.
- Know a safe evacuation route from your house and the location of the nearest evacuation area.
- Have an Emergency Kit with the following items always available:
 - * **Water** (3 liters per person a day)
 - * **Food** (canned, dried, or vacuum-packed items)
 - * **Valuables** (cash, insurance card, bank deposit book, personal seal, etc.)
 - * **Clothing** (underwear, gloves, towels, clothing to protect against the cold, etc.)
 - * **First Aid Kit** (bandages, medicine, etc.)
 - * **Others** (portable radio, flashlight, batteries, candles, matches, portable stove, etc.)

The “Birth Registration” is given to you along with the Birth Certificate at the hospital. Bring the “Mother and Child Handbook” (Boshi Kenkou Techo) with you when you register the birth.

After registering the birth, you must carry out the alien registration procedures for the child. If either parent is Japanese, the child can gain Japanese nationality in which case alien registration is not necessary.

If the mother is entered into the National Health Insurance, a child care lump sum is provided. Please bring your seal and apply for it at the Citizens Division. (Those who are entered into company insurance should ask their company for details). The procedures for Child Benefit and for an “Infant Medical Certificate” (Nyuyoji Iryosho), which provides assistance in medical expenses, can also be carried out at the same time.

4. Personal Seals (Inkan/Hanko)

(1) Types of Seals

In Japan, a seal (inkan/hanko) carved with your first or family name is often used along with signatures. There are two kinds of seals. One is a registered seal (jitsuin) which is registered at City Hall and the other is a private seal (mitomein). By using your jitsuin with a registered certificate, your actions become legally confirmed. They are therefore used for formal contracts or legal acts such as registering your car. A mitomein is used for simple legal actions such as opening a bank account and withdrawing money from the bank. Seals can be made at a seal shop (hanko-ya). Please note that there are certain requirements for making a jitsuin.

(2) Seal Registration

Persons over 15 years old and over who have completed their foreign (alien) resident registration may register their jitsuin seal at the Citizens Division (Shimin-ka) of City Hall. Only one seal may be registered per person and the registration must be done in person. The name that you registered must be the same name that is printed on your Alien Registration Card. However, alphabetical seals cannot be registered. A Seal Registration Card will be issued once the registration procedures are completed. This is needed for applying for a Seal Registration Certificate.

Some seals cannot be registered so please inquire at the City Hall Citizens Division.

Inquiries: Yonezawa City Hall Citizens Division (Shimin-ka) TEL 22-5111

5. Health Insurance

Under the universal health insurance system, all residents of Japan are required to enroll in a public medical insurance system. There are two types of public health insurance: Employee's Health Insurance, which you enroll through your place of employment; and National Health Insurance, which you enroll at the municipal office where you live.

(1) National Health Insurance (Kokumin Kenko Hoken)

National Health Insurance is a public health insurance system for the self-employed, farmers, the retired, and those who are not covered by other health insurance systems.

Anyone who is not part of a health insurance system at your place of employment or not receiving social welfare must enroll in National Health Insurance. If you are not enrolled, you must pay the full amount of the medical costs incurred on your own.

a) How to Enroll

Please enroll for National Health Insurance at the Foreign Resident Registration Desk at City Hall. You will need to bring your Alien Registration Card.

It is possible to register for National Health Insurance if you plan to stay in Japan for more than one year, have completed your foreign resident registration, and are not enrolled in a health insurance system at your place of employment. You may join the insurance system anytime, but insurance premiums will be backdated to the date which you were considered eligible to enroll.

b) How to Pay for Medical Costs

For those enrolled in National Health Insurance, you must pay 30% of the total medical costs at the payment desk of the medical institution. Please show your insurance card to the main desk of the medical facility when you go to have a medical examination.

c) Payment of Insurance Tax

The head of the household holds responsibility for making an insurance tax payment if there is a person in the family who is covered by National Health Insurance. A tax payment notification will be sent to each household from the city and the payment must be paid before the designated tax payment date. The calculation of the insurance tax depends on your family structure, income, assets, and other elements, and is different for each person and for each year.

If you withdraw from National Health Insurance during the middle of the year because you return to your home country, etc., the insurance amount will be recalculated and the remaining tax amount must be paid even after you withdraw from the insurance. For details, please inquire at the National Health Insurance Desk at City Hall).

d) When a Notification is Required to the Tax Division

- ① When there is a change in address (within Yonezawa).
- ② When you move outside of Yonezawa.
- ③ When you enroll in Employee's Health Insurance at the place of your employment.
- ④ When a child is born, when there is a change in the head of the household, or when there is a death.
- ⑤ When you lose your insurance card or when it becomes damaged.
- ⑥ When you want to withdraw from the insurance (Such as when you are returning back to your home country).

Inquiries: Yonezawa City National Health Insurance Division TEL 22-5111

6. Taxes

(1) Income Tax

One of the taxes which you must pay to the government is Income Tax (Shotokuzei). You must complete the income tax procedures at the tax office between February 16th and March 15th and report your income from the previous calendar year. If you are receiving a salary, tax is automatically deducted.

Inquiries: Yonezawa City Tax Office, 1-1-9 Montomachi TEL 22-6320

(2) Residence Tax

Prefectural Residence Tax (Kenminzei) is collected by the Prefecture, and Municipal Residence Tax (Shiminzei) is collected by the City. Those who live in Yonezawa as of January 1st are subject to taxation according to their income of the previous calendar year. If you are self employed, a notice will come from City Hall and the tax is collected in ten monthly installments between June and March. If you are employed, resident tax is usually deducted from your monthly salary by your employer over 12 months from June through May of the following year.

7. Pension

Everyone in Japan, including foreign nationals, over 19 and under 60 years old must enroll in the National Pension system unless they are enrolled in any other public pension plan such as an Employee's Pension Plan or mutual aid society.

(1) National Pension System (Kokumin Nenkin)

a) Enrollment and Payment

Apply for the National Pension at the City Hall. A monthly pension premium must be paid. You can make the payments either at a counter of a financial institution using the payment slips or through an automatic transfer service.

b) When It is Difficult to Make Payments

If you do not have any income or your income is low and it is difficult to pay the pension premiums, the full or partial amount of the premium may be exempt with the proper procedures. For students, please use the Student Special Payment System to extend the payment of your pension premiums.

c) Payment of Pension Benefits

Payment of the pension benefits depends on the type of payment plan. Please inquire for details below.

(2) Employee's Pension (Kosei Nenkin)

If you are employed at a company, you will enroll in an Employee's Pension Plan. Half of the pension premium amount will be paid by the employer, and your premium will be deducted from your salary. The payment of the pension is similar to that for National Pension.

(3) When Leaving Japan

For foreign residents who leave Japan, it is possible to obtain a refund of their pension contributions. To be able to receive a refund, you must have enrolled in a pension plan while you were in Japan and paid the monthly premium for 6 months or more, and have applied for the refund within two years of leaving Japan. It is also possible to receive your pension after you leave Japan.

Inquiries:

For details regarding Welfare Pension, contact your place of employment

For details regarding National Pension, contact either Yonezawa City Hall (TEL 22-5111) or the Yonezawa Pension Office (TEL 22-4220).

IV. DAILY LIVING

1. Housing

Renting a place to live is commonly done through a real estate company. It is probably best to go with a Japanese friend or colleague and let the real estate company know what kind of living conditions you are exactly looking for.

※In Japan it is common to use the units “tsubo” and “jyo” to measure the area of rooms.

1 tsubo = 2 jyo \doteq 3.3058m² \doteq 35.583 ft²

1 jyo (the size of 1 tatami mat) is approximately 1.8m×0.9m

(1) Renting a House or Apartment

a) Lease Requirements

- Written Contract (Keiyaku-sho)
Fill out the lease contract and stamp the contract with your seal after the contract is explained carefully and all unclear items are understood.
- Guarantor (Hosho-nin)
A guarantor is necessary when signing a contract. If possible, ask a Japanese to be your guarantor. The guarantor has the responsibility of paying the rent or any other costs if the tenant is unable to do so.
- Key Money (Reikin)
Also called Kenrikin, it is paid to the landlord when the contract is signed. It is usually about 1-2 months' rent and it will not be returned to you when you vacate the apartment. Some areas do not require a reikin payment.
- Deposit Money (Shikikin)
Paid to the landlord when the contract is signed and is used to pay for rent payment defaults or for damages to your room. The cost for repairs to the room when you vacate the apartment is deducted from the total amount and the remaining amount will be returned to you. It is usually about 1-3 months' rent.
- Brokerage Fee (Chukairyo)
Paid as a commission to the real estate agent. It is usually about 1 month's rent.
- Rent (Yachin)
1 month's fee for renting the house or apartment. The rent for the next month must be usually paid by the end of the month.
- Common Service Fee (Kyoekihi)
Costs for electricity and cleaning common areas such as stairs and passage ways of the apartment.

For the reasons mentioned above, the total cost of renting a house or apartment for the first time is about 4-5 months' rent.

b) How to Renew Your Lease (Keiyaku Koushin)

Most leases are for two years but sometimes you can sign a lease for a shorter period. When you renew your contract, the rent may increase. You may also need to pay the landlord a fee of about 1 month's rent at this time.

c) How to Cancel Your Lease (Kaiyaku)

When you want to cancel your rental contract, you will need to follow the procedures stated in your contract and inform your landlord beforehand (usually 1 month before you are leaving). If you vacate without informing your landlord or inform just before you vacate, you may be charged with the next month's rent. Remember to also pay all of your utility bills and clean and fix your room to its initial condition before vacating.

(2) How to Rent Public Housing

Public Housing is low-rent housing managed by public institutions such as the prefecture or city for people who have low income and have trouble finding housing. You will need to contact each organization directly if you wish to apply for one. When there are many applications, openings will be chosen by a lottery.

Inquiries for Public Housing Managed by the City:

City Hall Building & Housing Division (Kenchiku-Jyutaku ka) TEL 22-5111

Inquiries for Public Housing Managed by the Prefecture:

Yamagata Prefecture Okitama Branch Construction Office Building Division TEL 26-6091

2. Electricity

(1) Starting Electricity Service

When you want to start using electricity after you move in, just turn on all the circuit breaker switches on the fuse box. After you check that the electricity is running, fill in your name, address, telephone number, and date when you moved in on the postcard application that is in your mailbox or attached near the fuse box and send it to Tohoku Electric. Contact Tohoku Electric if the electricity is not running.

Tohoku Electric Power Co. Yonezawa Office TEL 22-6310

(2) How to Pay for Electricity Expenses

There are two ways to pay the electric bill. One is to pay through an automatic withdrawal service from your bank or postal account. The other is to pay directly using the payment slip at a nearby financial institution or convenience store. If you do not pay by the deadline, a late fee will be charged to the following month's bill.

(3) Electrical Appliances

In Yonezawa the electricity used is 100 volts/50hertz. Please check your electric appliances before using them to see if they meet this standard. If they don't, it may be dangerous and will damage other appliances.

(4) When All the Electricity Goes Out In Cases Other Than a Power Outage

When you use electricity beyond the capacity and it short-circuits, the breaker falls automatically and the electrical supply will stop. The electricity will be restored if some of the electric appliances being used are turned off and the breaker switch is raised again.

(5) Discontinuing Electricity Service

If you will stop using electricity because you are going to be moving, contact Tohoku Electric at least 5 days before you move.

3. Water

(1) Starting Water Service

Tap water is safe to drink in Japan.

To start using water, come to the Water Utilities Department (Suido-bu) of City Hall and fill out the Application Slip to Start Using Water, have it signed/stamped by the owner (the landlord if you live in an apartment) and the actual user, and turn it in to the Water Utilities Department.

(2) How to Pay for Water Expenses

A statement for your water bill will be sent to your home each month. In areas that have a public sewage system, users will pay for sewage expenses at the same time. The water bill can be paid either through an automatic withdrawal service from your account at a financial institution or paid directly at a financial institution using a payment slip.

(3) When You Have Trouble with Water

When there is a leakage or when your pipes burst, turn off the main water valve and contact a plumbing company.

(4) How to Prevent Water Pipes From Freezing

Water pipes may freeze when the temperature goes below 4° centigrade during the winter. To prevent freezing, shut off the water service at night or when you will not be using water for an extended period of time. If your pipes freeze, wrap a towel around the facet and pour hot water on it, and the water should come out. If water still does not come out, contact a plumbing company.

How to Shut Off Water:

- ① Open the water faucet to let water out.
- ② While the water is still running, turn the handle of the main water shut-off valve to the right until it no longer moves.

(5) Discontinuing Water Service

If you are moving or when you want to stop using water for an extended period of time, contact the Water Utilities Department (Suido-bu) at least 1 week before and tell them your address, name, the date you are moving, your new address and the method for paying any remaining water expenses.

Inquiries: City Hall Water Utilities Department (Suido-bu)
5-1-23 Kanaike TEL 22-4511

4. Gas

Propane gas is the type of gas used in Yonezawa.

(1) Starting Gas Service

If you contact a propane gas company, a clerk will come and set up gas service at your home.

(2) How to Pay for Gas Expenses

You can pay for gas expenses by either paying to the bill collector after the monthly inspection of the gas meter or by an automatic withdrawal service at banks and post offices.

(3) When There is a Gas Leak

If you notice a gas leak, leave the window and door open, turn off the gas valve or meter faucet, and contact the gas company. Propane gas is heavier than air so you should sweep it out with a broom or similar object.

(4) Discontinuing Gas Service

When you want to stop your gas service, you should contact the propane gas company a few days before you want to stop the service.

(3) International Calls

Below are the main companies that provide international calling services.
